

## A new era in premium optical sorting

The new TOMRA 5C is a premium free fall optical sorter. Particularly suitable for free-falling products such as dried fruit, frozen vegetables, and nuts.

An evolved system with industry-leading sensors, the TOMRA 5C seamlessly and instantly future-proofs your operation's efficiency, safety, and yield by enabling better quality sorting and more accurate foreign material removal.

This easy-to-use machine is designed to grow with your needs while handling high capacities.
