

ANUGA Cologne, 26-29. April 2022

The exhibited **ZACMI piston filling machine**, which fills 1000 cans per minute, was the eye-catcher at the ANUGA Food fair. Suitable for soups, sauces, pasty products such as **applesauce, goulash, pet food**, etc.

Visitors were also interested in the new can seaming machine for beverage and food cans as well as in the telescopic fillers and vacuum fillers from ZACMI.
