

Service Competence Circle

page 1/3

Service for can seaming machines & filling machines.

THELEN-machines is your first point of contact when it comes to the topic of food processing machines.
Benefit from our network.

In addition to selling new machines, we also offer after-sales service.
For this purpose, we have set up a "**Service Competence Circle**".

Specialties are can seaming-machines and the upstream filling-machines.
We represent the market leader in their field and process all service and spare parts orders for you.
